ABSTRACT

The connections between what would be built on a street and socio-economic criteria for a fine street are not always easy to achieve. If we couldn't walk along street or go from one side to the other, then their aren't livable place.

Accessibility, interaction, publicness, comfort, safety connectedness and imageability Are the qualities which are subject to make street as livable place-Dynamic place.

Most of early streets, and country streets are could be called as' livable streets. But urban Streets? Rapid developments of technology and high concentration of people influence Badly for the livability of streets. It create inhuman environment.

Bodies that are involving to create now street pay more attention to one side of the situation.

But qualities of Livable street is necessary - its' need.

ACKNOWLEDGEMENT

Sincere thanks extended to,

Archt. Ranjith Alahakoon and Dr. L. S. R. Perera Year Masters,
For inspirations, guidance and encouragement given on the study.

Dr. R. Emmanuel Senior lecturer for his valuable comments throughout the study.

Archt. Ravin Gunarathna and Archt. Channa Horombuwa, for discussions made at various stages.

Indika, for Spending his valuable time uncomplaining by helping with the photographic work.

Renu, Priyanthi, Nimmi and Naomi you are great friends, for all assistance offered for me.

My dear mother and two brothers especially for Loku mallf for their never ending support and enthusiasm shown through my dissertation. Words fail me showing my appreciation.

CONTENTS

Abstract	i
Acknowledgement	ii
List of Illustration	iii
Introduction	v

CHAPTER ONE

Livable Place

1.1 Living	1
1.2 Livability	2
1.3 Parameters of Livability	3
1.3.1 Time	3
1.3.1 Space and Location	4
1.3.2 Culture and Society	4
1.4 Components of Livability	7
1.4.1 Quantitative Attributes	7
1.4.2 Qualitative Attributes	8

CHAPTER TWO

The Street.

2.1 The Street, An Introduction	10
2.2 Review from History about Street	14
2.3 Street as a Living Place	20
2.4 Ecology of The Street	22

CHAPTER THREE

The Dynamic Place

3.1 Place and Path	26
3.1.1 Static and Dynamic Place	26
3.2 Livable Street	28
3.2.1 Quantitative Attributes of a Street	28
Imageability	28
Connectedness	29
3.3 Space and it's Qualitative Dimension	30
3.3.1 Qualitative Attributes of a Street	34
Physical Comfort	37
Visual Appreciation	49

CHAPTER FOUR

Livability in Streets

4.1 Colombo - Historical Evaluation of the city	54
4.2 Life in the City	58
Pettah	58
Maradana	60
4.3 Basis for Selection	61
EXAMPLES	
4.4.1 Commercial cum Residential Street with Low Traffic Volume	63
4.4.2 Analysis	69
4.5.1 Purely Commercial Street with Low Traffic Volume	78
4.5.2 Analysis	85
4.6.1 Purely Residential Street with Low Traffic Volume	91
4.6.2 Analysis	105
4.7.1 Purely Residential Street with heavy Traffic Volume	113
4.7.2 Analysis	118

conclusion
