Declaration of the Candidate & Supervisor

“I declare that this is my own work and this thesis/dissertation does not incorporate without acknowledgement any material previously submitted for a Degree or Diploma in any University or other institute of higher learning and to the best of my knowledge and belief it does not contain any material previously published or written by another person except where the acknowledgement is made in the text”

P.A.N. Fernando

Date:

“\textit{I have supervised and accepted this thesis/dissertation for the award of the degree}”

Prof. Amal S. Kumarage

Date:

Department of Transport & Logistics
University of Moratuwa
Sri Lanka
Acknowledgment

It is my obligation to acknowledge the help, wisdom and counsel of generous people who helped me to complete this dissertation.

I wish to express my hearty gratitude to my supervisor, Prof. Amal S. Kumarage, Professor in the Department of Transport & Logistics, for his dedication and commitment right through the research work.

I am also grateful to Dr. W.K.Mampearachchi, course coordinator of M.Eng and M.Sc in Transportation for his continuous support to complete the study.

Same way, my heart felt gratitude must be extended to Mr. G.A.S. Ganepola, Director General and all the staff members of planning department, s department and all my friends in National Transport Commission who gave all encouragement and administrative support to continue the study.

Further, I wish to express my gratitude to Staff members of the Planning Department in Sri Lanka Transport Board and Staff members of Ministry of Transport for providing necessary details and helping in different ways to write this dissertation.

Finally my special thank go to my dearest husband for his constant encouragement and support extended throughout the study and making a suitable environment to devote time to this study.

P.A.N. Fernando
Abstract

“Public Passenger Transport (PPT) is very often associated with subsidies in almost all countries in the world”. When consider Sri Lanka, as a developing country, this statement is true with the PPT for Rural communities. Rural Passenger Services are making loss due to different reasons. As a result of this fact private bus owners are reluctant to operate bus services in uneconomic rural routes. But as an agricultural base country, over 70% of Sri Lanka’s population lives in rural areas.

Therefore rural passenger transport services are very important for the commercial, industrial, social and educational activities in rural communities and such services can provide several benefits to the rural societies.

The National Transport Commission (NTC) is implementing the project called “Gamisariya” to subsidize the identified uneconomic rural routes. Under this project transport services are provided for more than 1014 rural villages and for more than 77000 rural passengers.

The objective of the study was “To find out social & economical benefits created by “Gamisariya” project to the rural communities and to find out whether operators get sufficient subsidy amount to provide a reliable service to the villages.”

To achieve the objective following methods were used to collect data;

- Interview with bus passengers/villagers and operators in selected routes
- Interview with village committees who investigate the service.
- Discussion with the officers in NTC who are involving with Gamisariya Project.

According to the results of analysis the Gamisariya Rural Bus service (GRBS) Programme has increased the number of social and economical trips of the rural people. Further, the villagers are gaining more income for their production due to less transportation cost and higher volume of production. The project has higher economic benefit level to the society and road development and increasing land value are some indirect benefits that have been taken place due to the project.

Although several advantages are gained through this project the operators are not provided subsidies on time and some operators are not provided enough subsidy amounts to maintain their services. G.R.B.S has a significant impact on school trips of the children in selected villages and employment trips of the people. Further, to provide more useful service the time table of GRBS is needed to be coordinated with the timetables of buses, trains which have a grater demand from the passengers.

List of appendices ix
CHAPTER 01 1
INTRODUCTION 1
1.2 The Objective and Scope of the Research 4
1.3 Transport Services in Sri Lanka 5
1.4 Bus Passenger Transport Service in Sri Lanka 7
1.5 History of Rural Transportation 8
1.6 Public Transport and Subsidy 10
1.7 Uneconomic Rural Routes in Sri Lanka 11
CHAPTER 02 13
GAMISARIYA RURAL BUS SERVICE PROGRAMME 13
2.1 Initiating the Gamisariya Rural Bus Service Programme by the National Transport Commission 13
2.2 Objective of the Gamisariya Project 14
2.3 Condition of Paying Subsidies Before 2009 14
2.4 Identification of Rural Routes and Conditions for Subsidies After 2009 15
2.5 Community Service Monitoring Committee and Supervising the Project by NTC 16
2.6 The Information that should be Displayed in the Gamisariya Bus 17
2.7 Number of Gamisariya Services 17
CHAPTER 03 20
LITERATURE REVIEW 20
3.1 The Nature of Rural Travel and Transport 20
3.2 Transport and Dimension of Poverty 21
3.3 Rural Transport Modes 23
3.4 Impact of Transport on Economic Growth 24
3.5 Constraints of Rural Transport 27
3.6 Funding for Transport 29
3.7 Methods of Subsidizing Rural Transport 30
3.8 Motivations for Subsidies 32
3.9 Effect of Transport Difficulties 33
3.10 Sustainable Rural Transport Service 35
3.11 Summary of the Literature Review 36
CHAPTER 04 38
DATA & ANALYSIS OF GAMISARIYA PROJECT 38
4.1 Mirigama –Giriulla Gamisariya Rural Bus Service 38
4.2 Saliyawewa – Puttlam Gamisariya Rural Bus Service 43
4.3 Gepallawa-Kurunegala Gamisariya Rural Bus Service 46
4.4 Evaluating Passenger’s Profile in Selected Routes. 50
  4.4.1 Evaluating the medium used by children to attend the school 51
  4.4.2 Details of medium used to visit relations/entertainment activities and visit religious/cultural activities. 53
  4.4.3 Details of medium used to go for the employment 55
4.4.4 Details of new industry / business started after implementing Gamisariya Bus Service to the village 58
4.4.5 Evaluating the medium used by village families to go to groceries/market/weekly market 58
4.4.6 Details on usage of G.R.B.S by families for transportation of their production items 59
4.4.7 Details on usage of G.R.B.S for other trips 61
4.4.8 Subsidy benefit analysis 62
4.5 Summary of the Analysis 66
CHAPTER 05 68
CONCLUSION & RECOMMENDATIONS 69
5.1 Conclusion and Recommendations 69
