MANAGEMENT OF THE BUILT ENVIRONMENT ALONG MAIN ROADS
A STUDY WITH SPECIAL REFERENCE TO SELECTED AREAS OF COLOMBO – KANDY ROAD

A DISSERTATION PRESENTED TO THE FACULTY OF ARCHITECTURE UNIVERSITY OF MORATUWA FOR THE FINAL EXAMINATION IN M.Sc. ARCHITECTURE

P.JAGATH NISHANTHA
MAY 2000
## CONTENTS

**ACKNOWLEDGEMENT**

**LIST OF ILLUSTRATION**

**INTRODUCTION** ................................................................. 01

**CHAPTER ONE** ................................................................. 03  
PHYSICAL ENVIRONMENT ALONG MAIN ROADS. 
  1.1 Natural environment ....................................................... 03  
  1.2 Built environment ......................................................... 03  
  1.3 Structuring systems of built environment. ......................... 05  
    1.3.1 Structure based on psychology by Norberg Shultz 1971 .... 05  
    1.3.2 Systems or pattern of flowing and containers ............... 07  
    1.3.3 Classification based on composition and texture .......... 09

**CHAPTER 02** ........................................................................ 27  
MANAGEMENT OF THE BUILT ENVIRONMENT ALONG MAIN ROADS.  
  2.1 Reason for haphazard Development along streets ............... 27  
    2.1.1 Changes in Economic systems .................................... 27  
    2.1.2 Laws and Politics ..................................................... 29  
    2.1.3 Social Organization .................................................. 30  
    2.1.4 Cultural and Historical factors ................................. 31
2.2 Management of the Built Environment .................................. 33
  2.2.1 Composition Management ............................................. 34
  2.2.2 Management of Built Environment through texture. .......... 36

CHAPTER 03

3.1 Historical Background of the Colombo Kandy road ............ 39
3.2 The new developments and their impact on the character ... 44
  along main road.
    3.2.1 Composition .......................................................... 45
    3.2.1.1 Built and unbuilt arrangement .............................. 45
    3.2.1.2 Linkage system and containers ............................. 58
    3.2.2 Texture and Colour ............................................... 61

3.3 Other factors need to be consider in management of ........... 71
  Built Environment along Colombo Kandy road.

CONCLUSION 74
BIBLIOGRAPHY 77
ACKNOWLEDGEMENT

I wish to express my gratitude to,
Prof. Nimal de Silva, Head of the Department, Faculty of Architecture,

Dr.L.S.R.Perera, Senior Lecturer of Architecture where criticism, discussions as well as kind advice made this study a meaningful experience, Archt.D.P.Chandrasekara, Archt.Kapila Dharmasena and Archt.Lalith de Silva for their help through out the dissertation.

My colleagues, Sajith, Senantha, Edirisinghe and Thilak who helped me in various ways to undertake this task successfully.

My friend Ruwan who help me with the type,setting.

Finally heartfelt gratitude to my wife Wasanthi and my family members for all the sacrifice done and loving encouragement.
