Landscape design

H.A.P. Subhashini Gunasekara

September 2003
University of Moratuwa
This is to declare that dissertation Presented to the University of Moratuwa for the Master of Science degree in Landscape Design has been written by me.

H.A.P.S. Gunasekara.
To my Teacher,
Mrs. Shirani Balasuriya
INTRODUCTION

Importance of the study (The city of Sri Jayawardenepura-Kotte.) 3
Background of the study (Historic development) 5
Objectives of the study (Opportunities in Landscaping the City) 10

CHAPTER ONE HISTORIC BACKGROUND OF KOTTE (SRI JAYAWARDENEPURA) 13

1.1 Origin of Kotte. 13
1.2 The Period of the Sinhala kings. 15
1.3 Arrival of Portuguese and their influence. 16
1.4 The Demise of Kotte 18
1.5 The Dutch period 19
1.6 The Transfer of power to the British. 20

CHAPTER TWO HISTORICAL LANDSCAPE OF THE KINGDOM OF KOTTE. (SRI JAYAWARDENEPURA) 23

2.1 The city plan and architecture of ancient Kotte 23
2.1.1 Fortifications of the city of Kotte 23
2.1.2 Ancient streets of Kotte 26
2.1.3 Ancient inland waterways of Kotte 28
2.2 Textual evidence and visual perception of Kotte Sinhala Kingdom
2.2.1 Moats and Ramparts 30
2.2.2 The Alakeswara Pokuna 31
2.2.3 The Bowl 31
2.2.4 The Dalada Maligawa 32
2.2.5 The Pas-mahal paya or the king's palace 33
2.2.6 The Raja Maha Viharaya 36
2.2.7 Weherakanda 38
2.2.8 The Ambalama 39
2.2.9 Sri Rahula Monastery 41
2.2.10 Museum Exhibits 41
2.2.11 Alakeswara Sohona 42
2.2.12 Paddy Fields 43
2.2.13 Bank of Kelani River 44
2.2.14 Forest 45
2.2.15 Mahasen Devarajapaya (Mahasen Dev Madura) 46
2.3. The establishment and growth of the city of Kotte 48
   in the Colonial Period
   2.3.1 The fate of the rampart 48
   2.3.2 Modern street pattern and its link with the old 49
   2.3.3 Evolution of inland waterway system of Kotte 50
   2.3.4 Impact on the city of Kotte due to the Kelany; 52
       valley railway line.

CHAPTER THREE PRESENT CAPITAL OF SRI JAYAWARDENEPURA- KOTTE

3.1 The city plan of Sri Jayawardenepura as a new capital's 56
    in the 21st century
   3.1.1 Location of the new Capital  56
       City boundaries 57
       Geographic features 58
   3.1.2 Location of the new parliament complex 59
   3.1.3 Location of administrative Complexes 61
3.2 Landscape design of Sri Jayawardenepura as a 65
    new capital in the 21st century
   3.2.1 Concept and philosophy of new capital 65
   3.2.2 The lay out of Sri Jayawardenepura 65
   3.2.2.1 Design of the Sri Jayawardenapura city and its 66
       relationship to ancient city planning of Anuradhapura.
       Design of the Sri Jayawardenapura city 66
       Design of the Anuradhapura 69
   3.2.2.2 The inner (The core) city 72
   3.2.2.3 The outer city of Sri Jayawardenapura Kotte 75
3.3 Visual perception and environment of the city 76
    Its relationship to landscape.
   3.3.1 Highway landscaping and lake walks 76
   3.3.2 Bird Sanctuary 85

CHAPTER FOUR PRESENT CAPITAL OF SRI JAYAWARDENAPURA KOTTE 90

4.1 Existing situation of Sri Jayawardenepura-Kotte 91
   4.1.1 Population and population density 91
   4.1.2 Land use pattern-2000 92
4.1.3 Road and transport
4.1.4 Social infrastructure – Education
4.1.5 Recreation and open area
4.1.6 Solid waste disposal and environment
4.2 Present haphazard development proposals of the city of Sri Jayawardenapura - Kotte
4.2.1 Proposed master plan for Sri Jayawardenapura – Kotte
  - Road proposals
  - Improvement to Rajagiriya and Bathgamuwa junction
  - Housing development
4.3 What has happened of new city now
  Environment Condition of new city
4.3.1 Fauna
4.3.2 Flora
4.3.3 Marshy lands
4.3.4 Aquatic community
4.3.5 Identified environmental problems
4.4 Success and failures of new city
4.4.1 Success
4.4.2 Failures
4.5 Enhancement of the context of new city by modern design
4.5.1 Enhances
4.5.2 Context
4.6 Philosophies proposals and Guidelines
  - About the park
  - Public outdoor recreation space standards
  - Vegetation/Trees
COUNCLUSION
BIBLIOGRAPHY
ACKNOWLEDGEMENTS

This study was undertaken at the University of Moratuwa, under the guidance of the Director of Landscape Unit and the head of the Department of Architecture.

1. Dr. John Byram's valuable criticisms and mature advice improved the quality of this work to a substantial degree. He read through the draft of the dissertation with great care and patience and gave me considerable part of his time thus enabling me to complete this work within the time allotted to me. To Dr. John Byram therefore, I owe a deep debt of gratitude.

2. My Sincere thanks to Architect Mr. Channa Daswatha, Architect Mrs. Shirani Balasuriya and Professor Nimal de Silva for their inspiration and encouragement and advice arising from their intent knowledge of the background and the problems prevailing in Sri Jayawardenapura – Kotte.

3. And especially I owe a deep debt to Mr. Chandradasa for his valuable ideas and also releasing me, from the live project I am engaged in under his Urban Development Authority, to complete this study.

4. My deep gratitude to Landscape Archi. Rasika Weerasinha Department of Architecture, University of Moratuwa, for her invaluable information, guidance and encouragement.

5. My gratitude also goes to Mr. Nandana, Mr. Vimal Lokuliyana, Mis. Chandana Kalupahana, Landscape Devision of UDA and for their invaluable support.

6. I wish to acknowledge my sincere thanks to Mr. Vithana, and Mr. Alahakoon, Dept. of Architecture, University of Moratuwa, for their helps numerous ways.

7. My Sincere thanks are also do due to the members of my family and friends for their encouragement during this period.

8. I am deeply indebted to my loving unite, who indeed been guidance throughout my life.

ABSTRACT

The subject of this dissertation concerns the landscape environment within the capital of Sri Jayawardenepura.

(A verse from salalihini sandesaya)

"Remarkable friend! Know then the royal city Jyawardenepura, where reside pre-eminent men devoted and full of affection for the Triple Gem and which corners the heavenly city with boundless eternal prosperity and named Jayawardenepura, earned by manifold victories."

Sri Jayawardenanapura city has a significant place among the eight capitals of Sri Lanka. It had been a capital for about 150 years and also the place where the last king who ruled the entire country had his seat. The natural geological surrounding in the vicinity of the city was utilized to the maximum capacity, to transform it into a fortress city surrounded by water. The city was originally built by prince Alakeswara during the reign of king Wickramabahu iii (1351-1374) who ruled from Gampola. But king Parakramabahu vi is the ruler who contributed greatly to the city of Kotte being capital of Sri Lanka and where he had his seat.

Unfortunately there is little visible surviving from of this period's landscape and architecture, owing to the fact that the Portuguese seiged destroyed and abandoned in. But the Kotte period is often referred to as the golden era in the Sri Lankan history because it had highly developed socio-economic and cultural standards.

When studying about the Kotte era its literary achievements must be given recognition. Literary success was attained largely due to the efforts of Rev. Totagamuwa Sri Rahula and Rev. Veedagama Maithri,, Gira, Mayura, Selalihini, Parevi,Kouvl, Hansa Sandesa are some of the books containing verses which were published. All these speak of the landscape design of the historic capital.

The importance of this study is multiplied by the fact that Sri Jayawardenepura Kotte has once again being declared as the administrative capital of Sri Lanka, since 1983. No doubt, the decision may have been influenced by the fact that it once was also an administrative capital and by being so again the government wished to trade on the idea of going back to its former glory. Therefore it will be prudent for landscape designers, architects and other controlling bodies to evolve a scheme in which it will enable them not to destroy the concept on which Kotte
was built, or important characteristics and features it has cherished. The center of administrative power, the parliament was built in the middle of the Diyawanna Oya after excavating more than 300 acres of the water body. New road networks were built to facilitate rapid commercial and industrial growth. Hence the whole area of Sri Jayawardenepure Kotte is being developed in order to meet the challenge of being the capital with the status of a newly industrial country status in the 21st century. Therefore, it has become an important task to investigate the historical city and the kingdom as a whole in order to understand the influences it had in development to meet the 21st century needs.

This dissertation is thus directed to collecting data and information about the evolution of the city landscape, and analyzing it with the aim of using it in the future.

Chapter one of the dissertation concerns the historic background of Kotte kingdom. The period covered by this study will be from 1800 to 1950 (150 years of historical development). Chapter two will be the main chapter of this study. In this chapter landscape design and architecture of the Kotte kingdom will be studied in detail. Landscape design, architecture and the existing remains will be described in detail. The third chapter concentrates on the detail of the present capital of Sri Jayawardenepure Kotte and its landscape design.

The final part introduces philosophies, proposals and guidelines to enhance the aesthetics in landscaping the capital of Sri Jayawardenepure. It considers in what way modern designs should affect the present appearance of the town; what kind of open space improvements should be included in a master plan for coping with the city's future expansion; and what control measures should be introduced in order to conserve the historic landscape character of Sri Jayawardenepure yet allowing it to grow.
"What is it about historic centers and towns that attract us? What qualities do they have that make us want to walk along their streets and linger in their spaces? Historic centers present past____

Possessing buildings, moments, lanes and parks that resonate with memory and tradition.

The scale of their elements is inviting and walking through them, one can discover history in the smallest details. They give us a vision of another time. The past as embodied in the architectural heritage provides the sort of environment indispensable for a balanced and complete life. It is "a capital of irreplaceable, spiritual, cultural, social and economic value."

European character of the Architectural Heritage.
