ACKNOWLEDGEMENT

No work is done in isolation, rather it is the result of the author's interactions with number of people. In the case of this dissertation, which includes of time, the acknowledgements date back to the moment at which the essays were produced. There are however a number of individuals whose interest and support were particularly important in the development of my work.

I am indeed indebted to all of them for their valuable services and convey my respectful gratitude them.

Architect Ranjith Alahakoone, Senior Lecturer, Faculty of Architecture, University of Moratuwa for his advice to select the dissertation topic and further guidance and support.

And I offer my sincere thank is to **Dr.Samitha Manawadu** with whom I have had a continuous dialogue throughout this period, for his interests, belief, and encouragement and for his critical voice always there when I need it.

I am grateful to **Architect Priyantha Edussuriya** for his productive criticism and further guidance and supports.

And also gratefully remember my parents, Kumudu ,Lakma,Roshini and Nadeeka without whose help this would not have been realized who in one way or another gave me their time and the benefit of their knowledge and encouraged me when I despaired of ever reaching my goal and afforded me hospitality and friendship throughout my odyssey.
