Pg.No.

CONTENTS	
ABSTRACT	
ACKNOWLEDGEMENTS	

## **Introduction**

0.1. The study	iv
0.2. The issue	iv
0.3. Intention of the study	v
0.4. Scope and limitations	v
0.5. Methodology	vi

## **CHAPTER ONE : Contemporary urban built environment and its impact on the natural environment**

1.1. Urban built environment	01
1.2. Component of the Urban built environment	02
1.2.1. Urban design elements	02
1.2.2. The building complexes	02
1.2.3. Individual buildings	02
1.3. High-rise buildings as a major component of the urban built environment	02
1.4. High-rise buildings as a major impact on the natural environment	03
1.5. Ecological impacts of high-rise buildings	03

## **CHAPTER TWO : The concept of eco-sensitivity**

2.1. Eco-sensitivity: an overview	06
2.2. Eco-sensitive Architecture	06
2.2.1. Eco-sensitive Architecture as a sustainable solution for future	07
2.2.1.1. Conservation Energy	07
a. Site planning	08
b. Selection of Materials	08
c. Use of natural light and ventilation	09
d. Use of low energy system	10
e. Re-use of existing and old buildings	10
f. Design for flexibility	11
2.2.1.2. Working with climate	11
2.2.1.3. Optimisation of resource usage	13
2.2.1.4. Correct response to user needs	15
2.2.1.5. Respect for the site	15
2.2.1.6. Waste management	16
2.3. Eco-sensitive high-rise buildings	18

## **CHAPTER THREE : Eco-sensitive high-rise buildings as a futuristic solution to urban built environment in Sri Lanka**

3.1. An Eco-sensitive Design Approach for Sri Lankan high-rise buildings	22
3.1.1. Design Principles of eco-sensitive High-rise buildings	22
3.1.1.1. Building vs. Site relationship	23
a. Response to road-front	23
b. Orientation of the building	24
3.1.1.2. 3D-Form of the building	25
a. Position of the service core	25
3.1.1.3. Envelope of the building	26
a. Wall	26
b. Fenestration	26
c. Balconies	27
d. Passive shading devices	29
e. Insulation and heat store	30
3.1.1.4. Interior of the building	31
a. Work spaces	31
b. Transitional spaces	31
3.1.2. Design strategies for eco-sensitivity	36
3.1.2.1. Conservation of energy	36
3.1.2.2. Climate Responsiveness	37
3.1.2.3. Optimisation of resource usage	38
3.1.2.4. Correct response to user needs	39
3.1.2.5. Respect to the site	40
3.1.2.6. Waste management	40
3.2. Eco-sensitive thinking into high-rise building regulations	41
3.3. Need to the change of the fundamental attitudes of the people	42
3.1.4.1. Users	42
3.1.4.2. Architects or designers	43
3.1.4.3. Policy Makers	43

<b>CONCLUSION</b>	<b>45</b>

## ACKNOWLEDGEMENTS

I would like to place on record my deepest gratitude to the following, whose generous contributions in numerous ways enabled me to make this Dissertation a reality:

- Archt. Vidura Sri Nammuni, Senior Lecturer, Dept. of Architecture of the University of Moratuwa, for his invaluable advice, many suggestions and guidance given to me throughout the course of the Study,
- Archt. Dr. L.S.R. Perera, Senior Lecturer, Dept. of Architecture of the University of Moratuwa For the many brain storming sessions I had with him, his invaluable advice, criticisms, guidance in the preliminary stage of the study,
- Archt. Dr. Ranjith Dayaratne, Senior Lecturer, Dept. of Architecture of the University of Moratuwa, for his invaluable advice and many suggestions which paved way to the most appropriate path of the study,
- Archt. Dr. M. P. R. Emanuel and Archt. Chris De Serem and Archt. Dr. D. Waduge Senior Lecturers, Dept. of Architecture of the University of Moratuwa for the valuable time spent in many discussions on the Subject,
- Archt. Suchith Mohotti for spending valuable time in the discussion I had with him also for providing me with necessary reference materials,
- Prasanna Aiya for his help and assistance provided in many ways,
- Somatilaka Aiya, Chamalee Nangi and Rathnamalla Malli for providing me with necessary Photographs, information and specially Prishanthi for providing me with necessary printouts,
- My colleagues, Kapila, Upul, Sudesh, Priyani, Indika B., Lila, Prasa, Lakma, Thamara, Mora, Kumudu, Dila, Chami, Rangika, Ruwan,
- My parents and younger brother Gnanaka for all the support, and encouragement's given throughout the study.
